COMMUNITY NEWS

Pest Control Reminder: Routine control of common household pests, including keeping pets free of fleas and ticks, is the resident's responsibility. Residents are encouraged to use household pest-control products labeled for safe public use. If pests persist despite these efforts, please submit a Maintenance Service Request for professional assistance.

Many pest problems can be prevented with good housekeeping. Cockroaches, mice, and other pests are attracted to food crumbs, dirty dishes, pet food, and improperly stored trash.

In the Pacific Northwest, spiders are also common. Help deter them by removing webs regularly and applying a peppermint oil and water mixture around doors and windows.

Tips to Keep Your Home Pest-Free

A few simple habits can go a long way toward keeping your home clean, comfortable, and pest-free:

- Place household garbage in sealed plastic bags before disposing of it.
- Clean up food and drink spills promptly.
- Rinse cans and bottles before recycling.
- Keep dirty laundry contained and wash it regularly.
- Store food and leftovers in airtight containers.
- Remove spider webs around windows, doors, and outdoor entryways.

Thank you for helping keep our community clean, comfortable, and pest-free. Your efforts to follow these simple prevention tips make a positive difference for everyone and help maintain a healthy living environment for all residents. We appreciate your cooperation and partnership!
